JUVENILE INSTITUTIONS

Faith-based

The Department of Correction is developing a number of faith-based initiatives that will support participants in their spiritual and moral transformation. These efforts include three transitional housing units offering spiritual and life skills needed by students to successfully transition into society.

Re-entry

The state of Indiana was selected by the U. S. Department of Justice, National Institute of Corrections to participate in the "Transition from Prison to Community Initiative" (TPCI). The TPCI is a model transition process designed to increase successful offender community integration.

Education

The Juvenile education system of the Department of Correction is being aligned to meet the Federal mandates of "No Child Left Behind" and The Individual with Disabilities Education Act. These mandates will ensure that all offenders coming into the system will have educational opportunities available to them while they are in the correction system.

The Adult education system of the Department of Correction is maintaining its high standards of literacy attainment for all offenders and simultaneously the Department is rapidly expanding its career programs that translate into jobs for offenders upon re-entry into the community.

Substance Abuse

We offer Substance Abuse treatment services at all Department locations, as well as in every Parole district. Currently there are 120 providers working within the Department providing much-needed services to offenders with Substance Abuse issues.
